INFORMATION 6 / April 2006

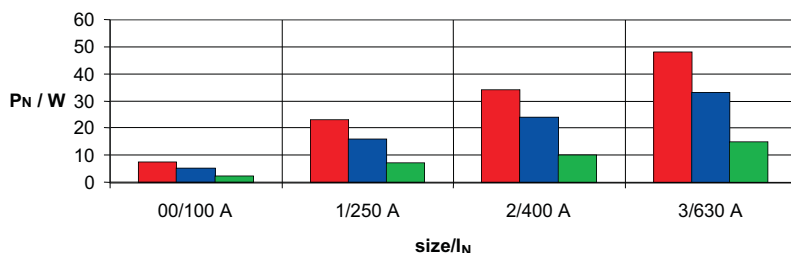

Complete range of fuse links "gG" **400 V AC - *energy saving*** **NH- D/D0- and cylindrical fuse system**

complete range of fuse-links for residential, commercial and industrial applications for 400 V AC networks

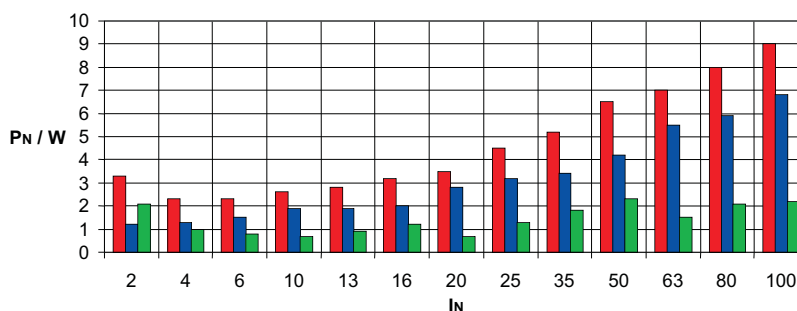

- ⇒ **Power dissipation considerably reduced compared to fuse links 500 V AC "gG"**
- ⇒ **Reduced energy consumption – cost reduction**
- ⇒ **Low heating (reduction up to 20%)**
- ⇒ **Reduced aging of components**
- ⇒ **Replacement of fuse links 500 V AC - identical dimensions combination of fuse links 400 V AC and 500 V AC possible (mixed voltages possible)**

Fuse links "gG" 400 V AC - energy saving

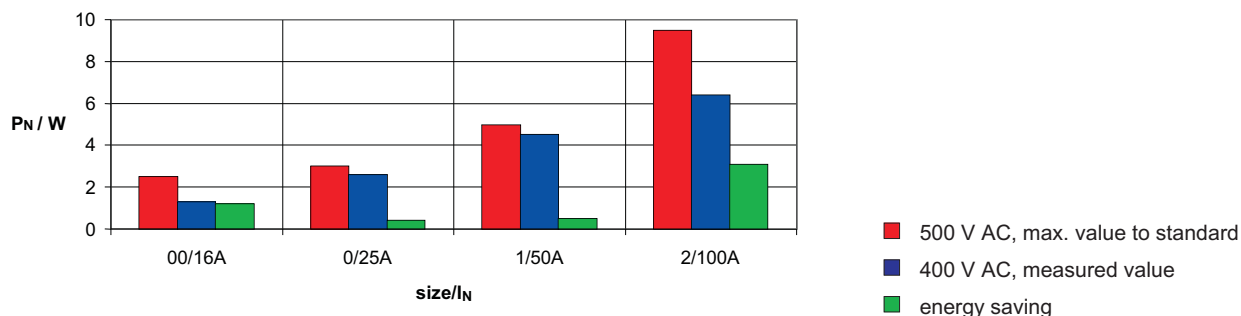

- ◆ Power dissipation - NH-fuse links "gG"
energy saving up to 15 W with rated current of 630 A

- ◆ Power dissipation - D-fuse links "gG"
energy saving up to 2.3 W with rated current of 50 A

- ◆ Power dissipation - cylindrical fuse links "gG"
energy saving up to 3.1 W with rated current of 100 A

■ 500 V AC, max. value to standard
■ 400 V AC, measured value
■ energy saving
